

CITY OF HILLIARD, OHIO

SPECIAL FLOOD HAZARD AREA DEVELOPMENT PERMIT APPLICATION

Application is hereby made for a DEVELOPMENT PERMIT as required by Chapter 1323 of the Codified Ordinances of the City of Hilliard, Ohio for development in an identified flood hazard area. All activities shall be completed in accordance with the requirements of said Ordinance. The development to be performed is described below and in attachments hereto.

The applicant understands and agrees that:

- this permit is issued on the conditions and facts described
- any permit may be repealed if conditions or facts change
- permit is void if the activity has not begun within 180 days of the issuance date
- the permit will remain valid for one year from date of issuance, with an additional one-year extension upon request

Owner's Name: \_\_\_\_\_ Builder: \_\_\_\_\_  
Address: \_\_\_\_\_ Address: \_\_\_\_\_  
Phone: \_\_\_\_\_ Phone: \_\_\_\_\_

*NOTE: In addition to completion of this form the applicant agrees to submit any additional information required by the Floodplain Administrator in order to determine that the proposed development is compliant with the local and federal flood damage prevention criteria of the National Flood Insurance Program.*

Additional information may include but is not limited to: site specific plans to scale showing the nature, location, dimensions and elevations of the area and structure(s) in question.

Description of Work

1. Location of proposed development site-address: \_\_\_\_\_  
Legal description: \_\_\_\_\_

2. Type of development proposed:

- |  |   |  |
|--|---|--|
| <input type="checkbox"/> new building      | <input type="checkbox"/> existing structure | <input type="checkbox"/> filling/grading |
| <input type="checkbox"/> residential       | <input type="checkbox"/> alteration         | <input type="checkbox"/> mining/dredging |
| <input type="checkbox"/> non-residential   | <input type="checkbox"/> addition           | <input type="checkbox"/> watercourse     |
| <input type="checkbox"/> installation      | <input type="checkbox"/> accessory          | <input type="checkbox"/> alteration      |
| <input type="checkbox"/> manufactured home | <input type="checkbox"/> materials storage  | <input type="checkbox"/> other*          |

\*Describe activity: \_\_\_\_\_

3. If the proposed construction is an alteration, addition or improvement to an existing structure, indicate the cost of the proposed construction \$ \_\_\_\_\_. What is the estimated market value of the existing structure \$ \_\_\_\_\_.

*NOTE: An existing structure must comply with the flood protection standards if it is substantially improved (an improvement equal or greater than 50% of the market value of the structure). FEMA maintains that the "substantial improvement" definition applies to existing structures only and that once a structure meets the definition of "new construction" any further improvements to that structure must meet "new construction" requirements. For floodplain management purposes "new construction" means structures for which "start of construction" began on or after the effective date of the initial Flood Insurance Rate Map issued by FEMA for the community.*

4. Does the proposed development involve a subdivision or other development containing at least 50 lots or 5 acres (whichever is less) YES \_\_\_\_\_ NO \_\_\_\_\_

*NOTE: If yes, base flood elevation data is required from applicant if it has not been provided by FEMA.*

I AGREE THAT ALL STATEMENTS IN AND ATTACHMENTS TO THIS APPLICATION ARE A TRUE DESCRIPTION OF THE EXISTING PROPERTY AND THE PROPOSED DEVELOPMENT ACTIVITY. I UNDERSTAND THE DEVELOPMENT REQUIREMENTS FOR SPECIAL FLOOD HAZARD AREA ACTIVITIES PER THE APPROPRIATE ORDINANCE (RESOLUTION) AND AGREE TO ABIDE THERETO. I UNDERSTAND IT IS MY RESPONSIBILITY TO OBTAIN ALL APPLICABLE FEDERAL, STATE AND LOCAL PERMITS.

Applicant's Signature: \_\_\_\_\_

Date: \_\_\_\_\_

**ADMINISTRATIVE**

*NOTE: The following is to be completed by the Local Floodplain Administrator. All references to elevations are in feet mean sea level (m.s.l.). The term base flood elevation means the same as the 100-year elevation.*

5. Is proposed development located in:

- an identified floodway
- a flood hazard area where base flood elevations exist with no identified floodway
- an area within the floodplain fringe
- an approximate flood hazard area (Zone A). If yes, complete only 6a in the following question.

*NOTE: Floodway development must demonstrate through hydrologic and hydraulic analysis, performed in accordance with standard engineering practice, that no increase in base flood elevation will result during occurrence of the base flood discharge. If base flood elevations exist with no floodway delineation, hydrologic and hydraulic analysis is required to demonstrate not more than one foot increase at any point to the water surface elevation of the base flood.*

6a. Does proposed development meet NFIP and local General Standards of Section 1323.05(a) of your regulations?

- construction materials and methods resistant to flood damage       Anchored properly
- Subdivision designed to minimize flood damage       Utilities safe from flooding

6b. Does proposed development meet NFIP and local Specific Standards of Section 1323.05(b) of your regulations?

- Encroachments – proposed action will not obstruct flood waters.
- Proposed site grade elevations if fill or topographic alteration is planned.
- Proposed lowest floor elevation expressed in feet mean sea level.
- Proposed floodproofed elevation expressed in feet mean sea level (non-residential only).

7. Base flood elevation (100-year) at proposed site \_\_\_\_\_ m.s.l.

Date Source: \_\_\_\_\_

Map effective date: \_\_\_\_\_

FEMA Community-Panel Number: \_\_\_\_\_

8. Does the structure contain:

- basement
- enclosed area used only for parking access or storage, other than basement, below the lowest floor?

9. For structures located in approximate A zones (no BFE available) to structure's lowest floor is \_\_\_\_\_ feet above the highest grade adjacent to the structure.

10. The certified as-built elevation of the structure's lowest floor is \_\_\_\_\_ feet above m.s.l.\*

11. The certified as-built floodproofed elevation of the structure is \_\_\_\_\_ feet above m.s.l.\*

*NOTE: \*Certificates of a registered engineer or land surveyor documenting these elevations are necessary if elevations are provided by applicant.*

12. The proposed development is in compliance with applicable floodplain standards.

PERMIT ISSUED ON \_\_\_\_\_

13. The proposed development is not in compliance with applicable floodplain standards.

PERMIT DENIED ON \_\_\_\_\_

Reason: \_\_\_\_\_

*NOTE: All structures must be built with the lowest floor, including the basement, elevated or floodproofed to or above the base flood elevation (100-year) unless a variance has been granted. Only non-residential structures may be floodproofed.*

14. The proposed development is **exempt** from the floodplain standards per Section 1323.03(b) of the Flood Damage Prevention Ordinances (Resolution) No. 07-29.
