1113.01 PURPOSE.

- (a) "M-1," Restricted Industrial District. The M-1 District is established for light industries such as light manufacturing or processing of previously refined materials and other industrial uses that have little or no adverse impact upon neighboring districts. This district also allows certain commercial uses of an industrial character or that are necessary to provide services to employees within the district.
- (b) "M-2," General Industrial District. The M-2 District is established to accommodate industrial uses that are primarily of a manufacturing, assembly and fabricating character. These tend to be large scale or specialized industrial operations more likely to produce external physical effects potentially impacting, to some degree, adjoining districts. This district is intended to be located in areas where the allowed uses can most efficiently utilize major roadways, utilities and other infrastructure, while minimizing potentially incompatible influences upon neighboring districts.
(Ord. 14-29. Passed 10-27-14.)
